WANNISA KHAMSONTHA

JUNIOR FRONT-END WEB DEVELOPER

PROFESSIONAL PROFILE

Strong sales professional with a Bachelor's degree focused in Photography from Anglia Ruskin University. I am an experienced Sales Assistant with a demonstrated history of working in the apparel and fashion industry with over 3 years of customer service experience. Through this my customer service skills are exceptional, and I believe that customers are what make the company. I am open and interested in trying new things. During the lock-down I picked up some new skills, the first being I am currently learning how to code so I have gathered basic knowledge and skills in Python (Programming Language), Front-end Development, Web Design, HTML, and Programming.

WORK EXPERIENCE

Sales Associates

2011-2023 Multiple Companies, London

- To welcome, smile and approach customers displaying a cordial attitude and a willingness to serve.
- To possess good product knowledge in order to be able to advise the customer in an optimal and precise manner.
- To be able to serve multiple customers simultaneously and offer excellent service to all of them.
- To be familiar with the sales targets and aim to achieve and exceed them, individually and as a team.
- To prioritise customer service above all other tasks.
- To be familiar with and offer services according to the needs of customers in order to maximise sales .
- To provide support by maintaining an optimal store image that is attractive to customers at all times .

SKILLS BOOTCAMP

Completed the Skills Bootcamp in Front-End Web Development, an intensive program providing learners with hard and soft skills needed to pursue a career in front-end web development. Acquired expertise in application programming interfaces (APIs), user experience design, and building and deploying modern web applications. Gained proficiency in HTML5, CSS3, Javascript, jQuery, React.js, Node, and more. Developed skills in agile development, version control, technical project management, and utilized tools such as Git, GitHub, and Netlify.
